Let's just take our time
There's nothing else to do
What better way to spend the night
Than wasting it with you
The moon has won the war
The daylight waits to end
Stay here by my side
We'll watch the struggle start again
Chorus
I need you now and forever
So stay right here with me
Don't ever leave
Love was kept from me like a secret
And I swore that I was through
Until you, until you
The city settles down
I watch you as you sleep
There's a silent celebration for
Every breath you breathe
Now this all makes sense
With you as company
I left all I knew and found
A better part of me, yeah
Chorus
The time it took to find you
I would
Wait again my baby
The feelings that
I feel with you, yeah
Chorus
Until you until you until you
