I need to find a place to belong
where they end up losing control.
All in one place at dawn strong
look like a soccer ball.
begin to repeat, here we go
the countdown back home!!
re talking about our love
Ohhh!!
able to repeat that dream
and somewhat extreme
to be the perfect small team

ilucion one can not begin
should clarify the end, end.
try to be apart
to love and be the star!!
and that every where, where,
where, where
every where I go!!
Ohh hh

(chorus)

Now just, just tell me
who feels this heat from the sun.
now I want to play me
feel the taste, taste of this fun.
and that every where, where,
where, where
every where I go!! x3
feel in my heart all this love.

eh caught a new moment
that is a bit hot.
strong and cold wind this longer
it took my favorite hat.

begin to repeat, here we go
the countdown back home, home !!
re talking about our love
and that every where, where,
where, where

every where I go!!

(chorus)

Now just, just tell me
who feels this heat from the sun.
now I want to play me
feel the taste of this fun.
and that every where, where,
where, where
every where I go!! x3
feel in my heart all this love.
another surprise
get in your eyes
every where I go!!
never forget
always be perfect
this love!!
Ohh!!

Now just, just tell me
who feels this heat from the sun.
now I want to play me
feel the taste of this fun.
and that every where, where,
where, where
every where I go!! x3
feel in my heart all this love.
and that every where, where,
where, where
every where I go!! x3
feel in my heart all this love.
