Never been in heaven
I am only influence
I let my wings appear
Something that I did not
never felt before I was
trying to fly but could not find the guts
but showed up and changed my world.

try to raise to the sky
I did dream
I immunity immunity.
I feel as if they really could float
for the first time ,first time ,first time

When looking for new
the first drop callus
the whole sky was your own fear
and wanted to know how to feel it
I'm really confused ..
showed me something that I could not see
opened my eyes and made me believe

try to raise to the sky
I did dream
I immunity immunity.
I feel as if you really could fly
for the first time first time first time
ohhh!

and freedom from fear or
I just want to be with ishment
ohhh!

try to raise to the sky
I did dream
I immunity immunity.
I feel as if they really could float
for the first time first time first time
first...
