Take your hand, I can understand  
that reason, and comprehend.  
the memories have forgotten  
That usually happens often  
You were the most beautiful  
happened to me, was wonderful  
I want to come back in the past  
time is very fast and is the last.

always said I was a dreamer  
now live my own dream  
I wish that I could see  
but I still believe that everything  
has its moment.  
Ohhh Ohh!!

my guardian angel  
you became  
You were sent to send it  
you pretend  
I used to call you my angel  
had fallen from heaven for me  
'Cause you're my angel, my guardian angel  
my guardian angel

sorry for not saying goodbyes  
in the due time  
wait a few lies  
wrote all this time.  
you were my best friend  
and I tell you I miss you  
I do not think that is the end  
after kiss you.  
always said I was a dreamer  
now live my own dream  
I wish that I'd see  
but I still believe that everything  
has its moment.  
Ohhh Ohh!!

my guardian angel  
you became

You were sent to send it  
you pretend  
I used to call you my angel  
had fallen from heaven for me  
'Cause you're my angel, my guardian angel  
my angel

my guardian angel  
've always been your  
just enough to remember  
those moments with you  
you used to say don't surrender  
and always will believe you  
my angel November.

Yeah!! Yeah!!

My guardian angel  
My guardian angel.  
Now that you are here  
and that makes me happy  
not only miss  
but to ask you back my dear

i love you  
my guardian angel  
my guardian angel  
my , my, my,my  
my guardian angel.
