I'm caught in the same routine
I need to change my ways of acting
Exceeds one day losses
Forget your incredible game of love
Miss the way you made me believe
I'll try to believe in me this time
No resigns again

(Choro)

And all you say is
Save me, save me

(Long Cool Piano Solo)

The mirror can lie forever

Will clarify what actually shows no
Consigniere how amazing is putting a smile can hide
A life full of lies

I fall in love with another person
Do not miss them your love
And dream to end this pain
This is something stranger
And I want even longer

(Choro)

And all you say is
Save me, save me
