Oooohh
Wooh!
She's my special lady
She's my special lady

I met her at the party
A Friday night
Attended by everybody
But something was not right...

I did not know her name
And I dare enter the game.
I looked into your eyes
And she made me fly.

Hello beautiful
I've never seen you before?

We talked all night
Trying to make things right

Just be friends?
From beginning to end
That does not seem right
I can no longer pretend.

She's my special lady
Oooohh
A perfect stranger in my mind.
She's my special lady
Oooohh
The only one that makes me be inside line.
She's my special lady
Please tell me
What you feel for me
She's my special lady
Yeah, Yeah, Yeah
