I've been worried enough for the both of us
I hope that I haven't said too much lately, ooh lately
You laugh and listen to my mind
Underneath the lights of the city sky, baby, ooh baby

When nothing is going my way
You're still beside me
When it all falls into place
It just reminds me

Either way is fine with me
You make it look so easy
We got all the time we need

Either way is fine with me
You make it look so easy
You make it look so good

All these pictures hanging in the room
Of the things I thought I'd never do, baby, ooh baby
And I second guess what you don't doubt
And somehow it just all works out lately, ooh lately

When nothing is going my way
You're still beside me
When it all falls into place
It just reminds me

Either way is fine with me
You make it look so easy
We got all the time we need

Either way is fine with me
You make it look so easy
You make it look so good

My life gets bright by the day
From loving you, shine
I don't think you even have to try

Either way is fine with me
You make it look so easy

We got all the time we need

Either way is fine with me
You make it look so easy, baby
You make it look so good

Either way is fine with me
You make it look so easy
We got all the time we need

Either way is fine with me
You make it look so easy, baby, babe
You make it look so good
