Build a little cabin on a little tall hill
plan a little garden, pray for every meal
and we'll grow, and we'll grow
take a little nap in the butterfly grass
just you and I and the clouds a pass
and we're close, so close
we'll be living out where the river bends
where the grass gets green and the highway ends
living easy, easy
you and me baby and the daffodils,
the kids growing up in the rolling hills
and love will be enough for us
rains coming down on the old tin roof
a lullaby storm in the middle of June
falling slow, falling slow
we'll be living out where the river bends
where the grass gets green and the highway ends
living easy
you and me baby and the daffodils the kids growing up
in the rolling hills
and love will be enough for
us, ooooooh, love, ooooooh, love, will be enough
wake up darling let's leave tonight,
we can disappear under the clear moonlight
and we'll be living out where the river bends
where the grass gets green and the highway ends
living easy
You and me baby and the daffodils the kids growing up
in the rolling hills
and love will be enough for us
We'll build a little cabin on a little tall hill
