On a night like this, I could fall in love
I could fall in love with you
In this dark so dense, we talk so soft
the way young lovers do

The day's last sight turns to cool night's breeze
And this love hangs thick like these willow leaves
I've hid myself away from this
but your silhouette is a Judas kiss

On a night like this, the moon sits still
And the stars are watching too
The way you move is a lullaby
I could fall in love with you

The day's last sight turns to cool night's breeze
And this love hangs thick like these willow leaves
I've hid myself away from this
but your silhouette is a Judas kiss

On a night like this, I could fall in love
I could fall in love with you
