Give me something to build upon
Something I can see
Something to build upon, Right here in front of me

If I can't build it with my hands
Give me something that I can

Give me something to build upon
Something I can see

My head is hurting, My back is breaking from this
burden
It's so hard waiting while there's

So much work to be done
Give me something I can build upon

Give me something I can do right now
Something that I can change
Give me something I can do right now, Sitting here
feels so strange

If I say then I should do,
Lord, keep me to these words

Give me something I can do right now
Something I can change
