We are in tune with old, now feel-feel it.  
Feel better supposed to  
Say it was something new, one by one  
(all we are is no one)  
This won't mean a thing.

Were you feeling so sad?  
Were you feeling so sad?

I overheard you once, this has on gone before.  
Kinda like the way you move with me  
We are accounted for.  
We seem so far away from,  
These things we used to know.  
We seem so far away from, everything new.

We are in tune with old, now feel-feel it.  
They all will say they broke it up  
Say it was something new, no one needs to know  
We seem so far away from,  
This won't mean a thing

Were you feeling so sad?  
Were you feeling so sad?

I overheard you once, this has on gone before.  
Kinda like the way you move with me  
We are accounted for.  
We seem so far away from,  
These things we used to know.  
We seem so far away from, everything new

All we are is no one (no one)  
This won't mean a thing.  
We seem so far away from, these things we used to  
know.  
We seem so far away from, everything new
