"Bury Me"

Visit "[Bury Me](#)" on MotoLyrics.com

Engine take me home
My blood is poison now
Am I too far beneath the surface
To replace this heart

I was almost there
I never had a care
Just when I hit the ground running
You set me up to fall in quicksand
I'll never get out

Bury me
Yes, burying me
When nothing's left at all
And everything we know is gone
Bury me
Oh, bury me
When nothing's left at all
And everything we know is gone

Lost in this storming state of mind
When I close my eyes tonight
No rhyme, no real reason why
To replace this heart

I don't feel like I'll ever make it
Out alive (running out of time)
Now I'm sinking in quicksand
I'll never get out

Bury me
Yes, burying me
When nothing's left at all
And everything we know is gone
Bury me
Oh, bury me
When nothing's left at all
And everything we know is gone

Can I remember
Close to anything?

Nothing left
Nothing left

Can I remember
Close to anything?
Nothing at all
Nothing here...
Never get out

Bury me
Yes, burying me
When nothing's left at all
And everything we know is gone
Bury me
Oh, bury me
When nothing's left at all
And everything we know is gone
Everything is gone
Everything is gone
Everything is gone

[Screaming]
Gone!
I'll have what it takes
I'll have what I have
