He is a man sick for sex... is a cancer in the city  
Is the horridness murder... is the beast of the  
underworld

[Lead guitar]

With his words seducing her... with his tragic crawls of  
death  
Betraying her with the kiss of Judas  
... in the night he is gonna seek girls

Lies... he cheats the girls... lies... promising them fame  
Falsehood... his words are unreal... murderous...  
A demon with face of goat... violent... perverse and  
macabremind...

Angry... torturing her with electrical shocks  
Inhuman... he beats them during the violation  
Lunatic... death judgements in his bed  
Corpses... there is not warm-blooded  
Morbid feelings, to mangle women  
Slowly, killing, rapping, riddling, victimizing, weeping

Lies... he cheats the girls... lies... promising them fame  
Falsehood... his words is unreal... murderous...  
A demon with face of goat

When will finishes the torture? Death will be near  
He dismembers his victims, gladness among flesh  
Suffering until the tomb, swamped in their epitaphs  
Then the murderer, devours their flesh

Eating their cranial bulk, their genital organs  
Pus from their vaginas, the blood renneting  
The hard and smelly flesh, tempting to the murder  
... eating their putrid flesh!  
... eating their putrid flesh!
