Holding my breath
Last one I've got left
I see you

Deliver my heart with the
Pieces and parts of me that
Every last day seemed to carry away
A life time, watch from the ground
As the gold fluttered down from the sky

Sweet sun, send me the moon
Empty the skies out
Bringing me one step closer to you
Send it soon and I will breathe in, breathe out
Until you come in and out
Of you, of you

Inches away from you
Scared what I'll take from you, darling
I can live with your ghost
If you say that's the most I'll get

Darkens to light
Moved from day into night to be near you
Still here I stand
I am sinking like sand in your sea

Sweet sun, send me the moon
Empty the skies out
Bringing me one step closer to you
Send it soon and I will breathe in, breathe out
Until you come in and out
Of you, of you

You already do
Never you mind where the evening should find us
Together, distance can't take what is hidden here
Safe in my chest

I'll wait for the day when
We finally say now or never
'Till then I'll be here wanting more

As I settle for at most fear

Sweet sun, send me the moon

Empty the skies out

Bringing me one step closer to you

Send it soon and I will breathe in, breathe out

Until you come in and out

Of you, of you
