I keep waiting for a song to come and sing you back to
me

I never felt so free as when I had you
Your rhythm was the best that's touched the likes of me
I was really me when I had you

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me singing together

My radio, it still plays the songs you like to hear
As if you were here, oh, I love you
I'll take the time to tune the station in real clear
Like when you were here, oh, I need you

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me singing together

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me singing together

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me singing together, singing together
