When we take off  
And leave the ground  
We'll be high  
Above the tiny town  
The little houses and their little yards  
When we take off, and leave the ground

We'll be high above the tiny town  
Way above the trees  
The people in their worlds upon the freeways  
So high above the sea

As long as you hold my hand  
As we watch the swift receding land, I'll know no fear  
And if my number's up today  
Well then God will take me just this way  
'Cause I knew true peace while I was here  
When we take off, and leave the ground

We'll be so high above the tiny town  
Way above the trees  
The people in their worlds upon the freeways  
So high above the sea  
The sparkling golden sea  
So high above the sea, yeah

We'll be so high above the tiny town  
Way above the trees  
The people in their worlds upon the freeways  
So high above the sea  
The sparkling golden sea  
Way above the sea, yeah

When we take off, and leave the ground  
When we take off, and leave the ground
