Take me to the forest out into the woods
Out to the mountaintop where we once stood
I need to lie out under the towering pines
Fall asleep under a wide-â€ open sky

Come together, every man every child
Every woman and girl, every boy running wild
Let's go, what are you waiting for
Let's go, what are you waiting for

Light, light is all around
Life is brighter than you found
I gotta feel some softness under my feet
I gotta go before I'm hard as concrete
My heart is racing, gonna get there soon
I wanna swim under a big diamond moon

Come together, every man every child
Every woman and girl, every boy running wild
Let's go, what are you waiting for
Let's go, what are you waiting for

Light, light is all around
Life is brighter than you found
Take me to the forest, take me to the woods
We've almost made it and we really should

Come together, every man every child
Every woman and girl, every boy running wild
Let's go, what are you waiting for
Let's go, what are you waiting for
Let's go, what are you waiting for
Let's go, what are you waiting for
Let's go, what are you waiting for
