I found my space  
(come and drive with me)

The world is too small  
And it's hard to find some room  
Pay so much for walls around us  
And close in too soon  
We all hold for doors to open  
The place to rest our heads  
We get tired of all the driving  
And we break down in stead  
But that's not for you  
'Cause you're part of my plan  
Throw the things that you're in love with  
In the back of my van  
And we'll just drive off to somewhere  
We'd both rather be  
Say that life's about the journey  
Come and drive it with me

[CHORUS:]

'Cause I finally found my space  
Come ride with me I've got some breathing room now  
For the world's a better place  
'Cause I finally found my space  
I've got some breathing room now (got some breathing  
room now)  
For you and me

I've got sunshine but once there was a grey  
Got some money in my pocket  
I put some more away  
I've got my hands on the wheel  
For the first time I see  
That this life's about the journey  
Come and drive it with me

[CHORUS]

A night on the road  
Cruisin' in the moonlight  
When we're together

Everything feels so right  
Just like we're driving in a universe of two  
Tonight

So just kick back (relax)  
And watch the world go by  
Feel your worries disappearing  
When you get by my side  
And crank that cereal way up  
And kickers into drive  
'Cause this life's about the journey  
And we're feeling alive

[CHORUS] 2x

Finally found my space  
I've got some breathing room now  
Right here  
For you and me...
