"Be With You"

Shivering in the cold air
The wind is crawling
It's crawling into my face
A lonely road leading nowhere
I am longing
Longing for a resting place
There's a voice I hear that's
Calling me back home
And my spirit yearns to go
CHORUS
I wanna be with you
I wanna run to You
And loose myself in you
Through the veil of confusion
You are calling
Calling me by my name
I have fed the illusion
With the sweetest fruit
Still the hunger stays the same
CHORUS
The treasures of this earth
I want to leave behind
I want to free me from my mind
