I've seen you, cold winter,  
I know you, cold winter.  
You showed me no mercy,  
Still I shan't forget the warning.

You'll never know how it feels to be loved.

I know you, cold winter,  
You broke my heart, cold winter.

I missed you, warm summer,

Never thought I'd see you, cold summer.

You'll never know how it feels to be loved.

I thank you, cold winter,  
Never leave that game to life's story.  
You healed me, cold winter,  
You taught me how to face the morning.
