by the Dave Clark Five
You got to look before you leap
There's heartaches around every corner
You got to look before you leap
There's heartaches around every corner
Well, one fine day I met this girl
She was oh so fine
Well she said 'Boy, I'm gonna love love love you
For a long long time'
Now I said 'Wait... wait... wait... wait...'
You got to look before you leap
There's heartaches around every corner
You got to look before you leap
There's heartaches around every corner
Well, she said 'Right, I'm gonna prove you're wrong
Just you wait and see
Now take my hand and look into my eyes
And you'll disagree'
But I said 'Now, wait... wait... wait... wait...'
You got to look before you leap
There's heartaches around every corner
You got to look before you leap
There's heartaches around every corner
Now that she has seen the light
It was understood
Cause the very next day she walked away with
someone else
Like I knew she would
So I said 'Now, look... look... look... look...'
You got to look before you leap, believe me baby
There's heartaches around every corner
You got to look before you leap, I'm telling you now
There's heartaches around every corner
So look... look... look before you leap
