Somebody help me find a new love  
Somebody help me find it soon  
Somebody help me find a true love  
'Cause your love's grown so cold

No use you sayin' you still want me  
The love we had faded away  
I don't need you to be around me  
'Cause your love's grown so cold

Someone I always can rely on

Someone who'll never ever lead me on

Somebody help me find a new love  
Somebody help me find it soon  
Somebody help me find a true love  
'Cause your love's grown so cold

I need a new love, whoa-whoa  
I need a new love, oh-oh  
I need a new love
