Carpe Diem  
Carpe Diem  
This moment in its glory  
And its pain  
Is a heartbeat caught in time

Seize the day  
Seize the day  
Blazing across the endless wasted land  
Shedding light of eternity

Come embrace the day  
We will never pass  
This way again  
Never see this morning  
Never again this dawning of the sun

Come embrace the day  
We will never pass  
This way again  
Never see this dawn  
Never again this dawning of the sun

Feeble though we are  
Fleeting breath of life  
Touch immortality  
Tempus fugit

Carpe Diem  
Carpe Diem  
This moment in its glory  
And its pain  
Is a heartbeat caught in time
