(Pre-Chorus)

I'm ready for love for the first time
Ready for love and I know I'm coming home to
the stars

My heart is in fly

My dreams are alive, I can feel(Chorus)

I know that there's something inside

I'm falling into the sky

It's taking me over now

I'm getting closer now(Verse)

Know I'm feeling for so long

Feels like gliding away

Now like the sun,

I demand just rainy days(Pre-Chorus)

I'm ready for love for the first time

Ready for love and I know I'm coming home to
the stars

My heart is in fly

My dreams are alive, I can feel(Chorus)

I know that there's something inside

I'm falling into the sky

It's taking me over now

I'm getting closer nowOh I can feel it again

It's taking me over nowI'm ready for
love

I'm ready for love for the first time

Take me away

Take me away to the sun(Pre-Chorus)

I'm ready for love for the first time

Ready for love and I know I'm coming home to
the stars

My heart is in fly

My dreams are alive, I can feel(Chorus)

I know that there's something inside

I'm falling into the sky

It's taking me over now

I'm getting closer now
