And we too
Will it not be soft, kind
That rest from life
From patience, from pain

That rest from bliss
We know not when we find
How can I have enough
Of life and love?

In your eyes are my secrets
That I've never shown you
In my heart I feel
I've always known you

In your arms there's a comfort
That I never knew
You're what I've been waiting for
There's no one like you

Sure as the sunrise
Pure as a prayer
You fashioned hope
Right out of thin air

Every dream I abandoned
Seems it could come true
I believe in miracles
There's no one like you

Innocent as a newborn
In a world so frightening
It's as if my world's
Been struck by lightning

Every dream I abandoned
Seems it could come true
I believe in miracles
There's no one like you
