Some girls get carried away
Others save it for a rainy day
But well beg, borrow or steal
Well paint the town if we don't drown in sex appeal

Hair like honey (some girls)
Have lips like wine (some girls)
Make lots of money (some girls)
Some are legends in their own time
Some are legends in their own time

Some girls make front page news
Some girls really pay their dues
Well turn your head round and round
Get on your knees - say baby please!
But you can't keep us down

Hair like honey (some girls)
Have lips like wine (some girls)
Make lots of money (some girls)
Some are legends in their own time

Hair like honey (some girls)
Have lips like wine (some girls)
Make lots of money (some girls)
Some are legends in their own time
Some are legends in their own time

Some girls are mothers and wives
And they don't have to apologise
We don't beg, borrow or steal
Well paint the town if we don't drown in sex appeal
Hair like honey (some girls)
Have lips like wine (some girls)
Make lots of money (some girls)
Some are legends in their own time
Some are legends in their own time

Youve got mothers, wives, sisters and brothers...
