There is something in the air, whoa whoa  
(There is something in the air)  
There is something in the air, oh yeah

Deep within your mind, you have been blind  
Look around and find, there's something in the air  
Sometimes I can read it in your eyes  
Keep the dream alive, there's something in the air

There is something in the air, yeah yeah, oh yeah

Don't know why the truth becomes a lie  
Makes me wanna cry, there's something in the air  
So we're gonna dry the tears of pain  
Wash away the rain, there's something in the air

And I can feel it, oh yeah  
Oh, I can feel it everywhere

(There is something in the air)  
Our tears will dry tomorrow, no more pain or sorrow  
There's something in the air  
(There is something in the air)  
All the darkness turns to sunlight, dawning hits the  
long night  
There's something in the air  
(There is something in the air)

Yeah, yeah, yeah, oh yeah

We can heal the wounds of time together  
It'll be forever, there's something in the air  
I can feel the love that I desire  
Come on take me higher, there's something in the air

And I can feel it, oh yeah  
Oh, I can feel it everywhere

(There is something in the air)  
Our tears will dry tomorrow, no more pain or sorrow  
There's something in the air  
(There is something in the air)

All the darkness turns to sunlight, dawning hits the  
long night  
There's something in the air  
(There is something in the air)

Something in the air  
(Is there something?)  
There's something in the air  
(Is there something?)  
Something in the air  
(Is there something?)  
There's something in the air  
(Is there something?)

(There is something in the air)  
Our tears will dry tomorrow, no more pain or sorrow  
There's something in the air  
(There is something in the air)  
All the darkness turns to sunlight, dawning hits the  
long night  
There's something in the air  
(There is something in the air)

There is something in the air  
(There is something in the air)  
There is something in the air  
(There is something in the air)  
There is something in the air  
(There is something in the air)  
There is something in the air
