"Surrender"

Visit "[Surrender](#)" on MotoLyrics.com

No more wars to fight
White flags fly tonight
You are out of danger now
Battle field is still
Wild poppies on the hill
This can only come when you surrender
Here the tracers fly
Lighting up the sky
I will fight until the end
Let them send their armies
I will never bend
I won't see you now til I surrender
I'll see you again when I surrender

Battle field is still
Wild poppies on the hill
Peace can only come when you surrender
Here the tracers fly
Lighting up the sky
But I'll fight until the end
Let them send their armies
I will never bend
I won't see you now til I surrender
I'll see you again when I surrender
