I wanna be your cigarette  
I wanna linger on your breath,  
Be the taste you can't forget  
And can't put down  
Be the first thing on your mind  
What you use to unwind  
That you come back to every time  
That you're put out

So light me up  
And burn me down

I wanna be your bad habit  
A bad habit that's too hard to break  
Just like air  
You got to have it  
I show up when your hands start to shake  
When you're broken I can be your fix

I wanna be your cigarette  
Be the one that you can't quit  
The one you call when you get lit  
And can't be alone

I wanna be your little secret  
You can't help it  
You just need it  
I want to be the only weakness that you want

So light me up  
And burn me down

I wanna be your bad habit  
A bad habit that's too hard to break  
Just like air  
You got to have it  
I show up when your hands start to shake  
When you're broken I can be your fix

I wanna be your cigarette

Be the last name on your lips  
Be the fire you can't put out  
Just like the the high that's in a kiss  
I keep you from coming down

I wanna be your bad habit  
A bad habit that's too hard to break  
Just like air  
You got to have it  
I show up when your hands start to shake  
When you're broken I can be your fix

I wanna be your cigarette  
I wanna be your cigarette  
I  
I wanna be your cigarette  
I  
I wanna be your cigarette
