### Verse 1

Can't run fast enough or get far enough away  
Everywhere I go you're there  
There's gotta be some place  
Where I can give my heart a break  
But you are up and down all around like air

### Pre-Chorus

All I really need is a little bit of distance  
But here you are again breaking down my resistance

### Chorus

Stop my heart from holding on to someone I should  
Never have believed in  
Stop my hands from reachin'  
Stop my tears from rollin' like a river on a rainy day  
Someone stop the bleeding

### Verse 2

It doesn't get easier no matter how much time goes by  
I been just pretending I don't care  
I gotta get past the point  
Where I get tangled up inside  
Anytime I see you anywhere

### Pre-Chorus

I'm never far away from becoming a disaster  
They say I'm gonna heal, but I gotta do it faster

### Repeat chorus

### Bridge

I don't wanna wake up fragile in the morning  
So leave my mind so I can sleep

### Repeat chorus
