Make me a witness
Take me out
out of darkness
out of doubt

And one day we're done
with good intentions
We'll make fire out of clay,
Brother invention

Will we burn in heaven
Like we do down here?
Will the change come
while we're waiting?
Everyone is waiting
And when we're done
Soul Searching

And we carry the weight
and die for as cause

It's misery
made beautiful
right before our eyes

Mystery will be revealed
Or blind us where we stand

Will we burn in heaven
Like we do down here?
Will the change come
while we're waiting?
Everyone is waiting
And when we're done
Soul Searching
