There you go again Keeping me at a distance A clever arm guarded against your heart Well I'm close enough to see That you've got more to offer Than the superficial lines Pouring through your teeth

(Chorus) I stand with the masses On the palm of your hand I'm fighting my way through the crowd To stand tall for your attention

You've got this ability To make me feel so damn unsteady You're the air I suffocate on In my bed, my heart is like a runners With every touch I just want to be called yours

(Chorus)

Just put your lips on mine Even if it's to say goodbye Just put your lips on mine Even if it's to say goodbye Goodbye...

(Chorus)
