"Sing Out"

I feel you inside me like
The blood coursing through my veins
Going to my fingertips
That push the pen to this page

My heart beats faster
You come closer
Close the door
And hear me sing out

Fold my heart in half
So it's easier to tear
Now take your share
Do with it what you will

Mark this lie with a kiss
Seal your betrayal with my lips
God, you taste so good

My heart beats faster
You come closer
Close the door
And hear me sing out

Hear me sing out
Hear me
Sing
