Centuries are conquered by sinners in the past  
Denial caused war, circle of almighty will last  
God to reform caress of nothingness  
Immortal touch of spinal death

Shattered, dreams left shattered  
Infernal, heavens dawn

Behind mountains of eternal might  
Frosty ice upon those mortal kind  
Power breeding of unknown lord  
Among bloodfloods, darkness unbound

Knowledge, feed me with knowledge  
Glory, leave me glorious

Spirits rise, those who died now await  
Feeble eyes, flesh are to be thorned

Human kind, are about to yearn  
Souls demise, are about to burn

Open wide are the gates of doom  
Desolated ones, get fed in the crypts  
Black form of a shadow shall be seen  
No longer in life, no longer dead

Shattered, dreams left shattered  
Infernal, heavens dawn

Knowledge, feed me with knowledge  
Glory, leave me glorious
