Got my heart patched up my goodnight sleep and my
dancin' slippers on
I'm diggin' up where I left off when lovin' you went
wrong
You'll notice I'm all smiles again and out of hibernation
Gonna hit those moonlit lanes again I'm back in
circulation
Don't play the blues for me I want the sunny side of life
Tell all the gang to meet me here we're gonna swing
the night
Hunt for everything that's wet and start the celebration
Gonna have myself a ball tonight I'm back in circulation
[guitar]
Put my cryin' towel away sunshine just peeped through
the clouds
Gettin' out my little black book checkin' upon my ole
crowd
Tell Mr Moon to shine tonight and make this
observation
I just bounced back from being hurt and I'm back in
circulation
Don't play the blues for me...
