This ol' rig that I'm drivin' ain't the sharpest on the road
These ol' bulls that I'm haulin' ain't perfumed
But if it wasn't for a lot of those truck drivers just like
me
Then who would bring those T-bone steaks to you
We're the bullshippers big bullshippers a haulin' them
ol' bulls across the land
We're the bullshippers big bullshippers bullshippin'
truck drivin' men

This ain't the best job in this world that I know
And some people may look down their nose at me
But I'd rather be a struggling with these ol' rowdy bulls
then a haulin' a load of TNT
We're the bullshippers...
There's a lotta pretty wairesses that I always see every
time I'm making my run
Well I tell 'em that I love 'em but they just laugh and say
You big bullshippin' son of a gun
We're the bullshippers...
Yeah we're the bullshippers...
