"Farewell To Arms"

Visit "[Farewell To Arms](#)" on MotoLyrics.com

Farewell to arms so warm at night farewell to hands
that could touch me just right
We had real love way back one time
That's all in the past so farewell to arms and eyes and
lips that once were mine
Farewell to kisses made of fire farewell to eyes always
filled with desire
I don't know how or where or when
It all went wrong so farewell to arms and eyes and lips
that once were mine
Farewell to arms so warm at night farewell to hands
that could touch me just right
We had real love way back one time that's all in the
past so farewell to arms
