Don't let my leaving make you cry too hard
I know the things I said caught you off your guard
I never wanted all of you just one little part
I hope my kind of love didn't break your heart
Well there you went and said it that we're in love again
It doesn't matter I would be just like I've always been
You opened up your love for me that's how these things
all start
I hope my kind of love didn't break your heart
I didn't try but I know you tried to make it work
But the only thing I've really done was to make you hurt
I'm through talkin' it's time for walkin' don't let your
teardrops start
I hope my kind of love didn't break your heart
Oh I hope my kind of love didn't break your heart
