Well, I'm through hurt and startin' today  
And here's something I'd like to say  
I know you'll be shocked and surprised  
But I wish you try this song for size

I won't go down that road anymore  
I won't go down that road anymore

You've had all of me you're gonna get  
And you ain't had the best of me yet  
When you want me, I'll be hard to find  
And I'll leave you with this thought in my mind

I won't go down that road anymore  
I won't go down that road anymore

Some things just have to be done  
And I guess my leaving is won  
I wish there was other way  
But I only have one thing to say

I won't go down that road anymore  
I won't go down that road anymore

It's over, I'm making my move  
Got my rags in my bag and I'll prove  
I'm gone like a big mockingbird  
Make sure you'll remember my words

I won't go down that road anymore  
I won't go down that road anymore  
I won't go down that road anymore  
I won't go down that road anymore
