"Anti-Human Black Metal Wrath"

We - the sons of ruin and terror
Rape your souls with Black Metal wrath
You - the worms of humanity
Thou shalt suffer the Black Metal wrath

You try to fucking humanize
This true satanic movement
But you are wrong
It can never be human

Anti-human, anti-life
Cut your flesh and worship Satan
True unholy metal KULT
Dedicated to worship and war

You make it a trend a game
Try to play the supreme's role
You will never have the same
Understanding and hate we have

When will you fucking get it
It's not "music" but propaganda
Of anti-human, anti-life message
And values to destroy human life

"Improvised hateful list of posers"
Fuck you all!

You only feed the business
Commercialism and humanity
Kill yourselves before you can
End your miserable humanity
