Ruled by emotions, clouded perception  
Emotionless perspective doesn't exist  
All these feelings burning inside  
Getting hold on me, takes control  
This world is...  
Faceless, blind, ruthless, cold

Regain control, logical revolution  
Thoughts collide, escalation  
Next level of pain... comes alive

[Lead: Kristoffer Andersson / Marcus Lundberg]

Self-inflicted torture of the mind  
Physical lies, deeds of the flesh  
Cancer fed feelings dressed in black  
Cancer fed thought feel the tumours grow  
This world is...  
Faceless, blind, ruthless, cold

Regain control, logical chaos  
Evaluate euphoria, decrease  
Next level of lies, dormant, calm

Breathing diseases walking upright  
Death of all mankind is my religion  
Acts of fools echoes in the past and paints the future  
No hope for me, my mind is blank  
This world is...  
Faceless, blind, ruthless, cold

Regain control, logical evolution  
Next level of pain... comes alive
