The beast has come
To take our souls!
We shall rot in the hole
Your end draws near
Bring satanic rites
No way to stop
Blood sacrifice!

Demons from hell
The beast will kill
Blood he will drink
And your will spill!
Sword to neck
Take your life!
Greet your death
Blood sacrifice!

Sacrifice is done
You're fucking dead!
Demons stand around
Smashing your head!
Candle burns low
To end the night...
You're still in hell!

Blood sacrifice!
