CHORUS

Precious Lord, take my hand

Lead me on, help me stand

Linger on, linger near

Precious Lord, take my hand

You are closer than the air I breathe

And You teach me who I am

And I want You to be my everything

Lord I need a place to stand

CHORUS

In the morning when I come to You

You are there to take my hand

And Your promises, they all come true

And Your grace is where I am

CHORUS
