

Satellite Soul "Soul"

Visit "[Soul](#)" on MotoLyrics.com

Everybody won't you gather 'round
Tell you life don't get no easier
No matter what you've found
It's all about who you are inside

Here's the message, now, loud and clear
You got to run the inner race
And find out what is there
It's all about who you are inside

These eyes are the lamp of my soul
(If one is pure it's in the eyes)
These words are the overflow from my soul
(If one has love it's in the words)
These hands will labor for my soul
(If one has faith it's in the works)
You know life is all about soul

Listen children, now, here's the word
Life don't get no easier
No matter what you've heard
It's all about who you are inside

Hear the message right where you are
If you will learn this one small thing
Then you're sure to go real far
It's all about who you are inside
