You don't want me to babe  
Ooh no  
Yeah, yeah  
Yeah, yeah, yeah, yeah  
Listen baby

I dreamed about being with you  
And I wanna make my dream come true  
But I know that your pain still remain  
(I know your pain still remain)

And I wanna be the one that you  
Can put your love and trust into  
But when you really need someone  
I like to be the one who will be right there

I don't know what to say  
I'll never have no words  
Every time, I see your face it hurts  
That I can't be with you  
'Cause I know, you don't want me to  
You don't want me to

I wake up all alone  
Make breakfast on my own  
Everything has changed now that you're gone  
Now I can't be with you  
Living life is hard to do  
When you don't want me to

I thought about the things, I said  
And I thought of what went through my head  
But please know that my heart never change  
(Please know my heart never change)

And right now, I need for you to see  
The very different side of me  
When you know, you can love someone  
I like to be the one who will be right there

I don't know what to say  
I'll never have the words

Every time, I see your face it hurts  
That I can't be with you  
'Cause I know, you don't want me to  
You don't want me to

I wake up all alone  
Make breakfast on my own  
Everything has changed now that you're gone  
When I can't be with you  
Living life is hard to do  
When you don't want me to

You know, it's not easy  
When I can't stop thinking  
Thinking about you  
Girl it's driving me crazy  
Because you don't want me to

I don't know what to say  
I'll never have the words  
Every time, I see your face it hurts  
That I can't be with you  
'Cause I know you don't want me to  
(You don't want me to)

I wake up all alone  
Make breakfast on my own  
Everything has changed now that you're gone  
When I can't be with you  
Living life is hard to do  
When you don't want me to
