In the cold of the full moon  
On this night  
Time itself it slips away  
Now you are mine  
Slowly hours pass  
All through the night  
Together we can disappear  
For a while I am still  
Forever and ever and ever  
Now I am still  
Forever and ever and ever  
Endless  
Endless  
Now I am still  
Endless  
Endless  
Your body is endless

Watching the hourglass  
On that night  
We touched the stars  
And reached the moon  
For a time  
I'm lost in a moment with you  
It feels right  
We're floating above the stars  
You and I

I am still  
Forever and ever and ever  
Now I am still  
Forever and ever and ever  
Endless  
Endless  
Now I am still  
Endless  
Endless  
Your body is endless
