Let prayer bring you out (3x)
(oh oh)

All my life I never had a very stable
home,
daddy left my mother all alone,
she did the very best that she could,
why he left I never understood

So she told me to pray (she told me to pray)
told me to pray until i get a answer

Money gone and bills need to be paid,
we all know what happen if you're too late,
no friends or nobody that I can call,
seems like nobody cares about me at all

So I think I will pray (think I will pray)
I think I will pray until i get a answer

Prayer can change anything, give prayer a chance

To guide you through miss-understandings
all you got do is be willing is to let pray

Let prayer bring you out 4x

I was listening to what the preacher had to say, he keep
looking
right in to my face, his words and my life went hand
and hand,
it was just like i was listen to and old friend

let prayer bring you out 4x
