Tried to make you see,
But all your hope's in vain.
But you can see that I'm?
Just feel naked pain.

Leave this world behind
Of that place you hope to find.
Leave without a trace,
No tears, no embrace.

Holding tight I'm saving you,
18 hundred? you.
Tried to give you love,
To show you how it feels,
But you lost all your confidence,
A wound just never heals.

Leave this world behind
Of that place you hope to find.
Leave without a trace,
No tears, no embrace.

Holding tight I'm saving you,
18 hundred? you.
I can change your mind, my dear.
I still love you with all your fear.

Tried to make you see,
But all your hope's in vain.
You just feel naked pain,
But all your hope's in vain.

Holding tight I'm saving you,
18 hundred? you.
I can change your mind, my dear.
I still love you with all your fear.
I can change your mind, my dear.
I still love you with all your fear.
