"A Thousand Words"

Darren:
We stumble in a tangled web
Decaying friendships, almost died
And hide behind a mask of lies
We twist, and turn, and we aviod
All hope, and salvage now devoid
I see the truth behind your eyes
Both:
So take all this noise to your brain
Send it back again
I'll bare the cost, she'd my skin
Call you up, and then
Daniel:
I'll say the words outloud

Both:
Chorus:
You can resurrect a thousand
Words to deceive me more, and more
A thousand words will give the
Resonds why I don't need you
Anymore

Darren:
Time manipulates your heart,
Preconceptions torn apart
Begin to doubt my state of mind
But I wont go down on what I said
I won't retract convictions read
I may perplex, but I'm not blind
Both:
So take all this noise to your brain
Send it back again
I'll bear the cost, she'd my skin
Call you up and then
Daniel:
I'll say the words out loud

Chorus

Darren:

I'll say the words out loud, I'll say
A thousand words, or more
Daniel:
Manipulation, Fabricaton,
Conversation, Annihalation,
Darren:
I'll say a thousand words or more
Daniel:
This Whole Damn Nation, Frustration, Elevation,
Procreation,
Darren:
I'll say a thousand words, or more

Chorus [x2]
