I am a god, I am prescient  
I am religion  
I see the future, I see the path  
Follow me, follow the vision  
I have become the ultimate power  
I am protection  
I am Messiah, I am a tyrant  
I show the path to redemption  
To man man and the universe

Transformed in to something else  
A being of nothing alike  
Invincible, unbreakable  
A creatures of numinous might  
And inside my head  
I am talking to the dead

Ancient memories  
Are whispering in me  
Father, give me guidance  
To the path you have foreseen

Uh, I carry the burden  
Of the world

Out in the oceans of sand  
I saw the future  
Of a golden land  
Below the plains  
I've been meeting my fate  
I stood the test  
The universe  
In the palm of my hand  
Oh am I blessed  
Or cursed

And by the water of life  
In the agony of spice  
I saw visions of doom  
I saw demise  
I am perpetual  
A sentinel in time

And for eternity  
You will remember me by

Far away the nemesis  
Is rising again in the dark  
The day will come  
When the scorch of man  
Is ready to embark

I see reflections  
From other memories  
I see the slaughterhouse  
Of the thinking machines  
Rein of terror  
Reign of the machines

Out in the oceans of sand

I set the universe  
On the golden path  
To seed desire  
Passion and wrath  
As the millenniums  
Are passing by  
I did my part  
Time has come  
For me to die

You'll remember me by

Out in the oceans of sand
